FINAL CALL FOR PAPERS

Submission of papers : April 14, 2006 (GMT)

Welcome to IWSEC2006

Following the success of a series of Japanese domestic symposia in the field of computer security, ISEC and CSEC are delighted to host the **First International Workshop on Security, IWSEC2006, on October 23-24, 2006, in Kyoto, Japan.**

The complex structure of networks, middleware, agents, P2P applications and ubiquitous computing for commercial, personal, communal and public use, brought forth the advent of information society in the cyberspace. However the system poses new and diverse threats to the world. It is imperative for the security researchers to look into the issues from an interdisciplinary perspective.

We invite authors to contribute papers addressing the topics: from traditional theory and tools on security to up-to-date issues.

Conference scope

Papers may present theory, applications or practical experiences on topics including, but not limited to:

- *Fundamental Tools for Information Security*
- *Network and Distributed Systems Security*
- *Privacy Enhancing Technology*
- *Secure Living and Working Environments*
- *Security in Commerce and Government*
- *Security Management*
- *Software and System Security*
- *Protection of Critical Infrastructures*
- *Testing, Verification and Certification*
- *Law, Policy, Ethics and Related Technologies*

Paper submission

Submitted papers must be original, unpublished, and not submitted to another conference or journal for consideration of publication. Papers must be written in English and be fully anonymous with no author names, affiliations, acknowledgements or obvious references. They should be at the maximum of 16 pages in total, in standard LNCS format (except for author names and affiliations). Papers should be sufficiently intelligible and self contained without appendices so that PC members can review papers without them.

Accepted papers will be presented at the workshop and published in the book of proceedings. At least one author of each accepted paper is required to register and participate in the workshop in Kyoto to present the paper. Proceedings will be published in a special volume of Springer LNCS.

Papers must be submitted in electronic form through the web. Web site for the electronic submission is now available at <http://www.iwsec.org/submission.html>. Submissions not meeting the submission guidelines risk rejection without consideration of their merits.

Kyoto

Late October is one of the best seasons to visit Japan, and the organizers are most pleased to host the conference in the city of Kyoto, where the tradition and modernity exist in harmony. While modern buildings line the main streets, the city maintains the serenity of an ancient capitol. Recognized by UNESCO as the World Cultural Heritage, the city is filled with ancient temples and beautiful gardens. For the visitors from outside Japan, Kyoto is easily accessible from Kansai Airport.

Important dates

Submission of papers : April 14, 2006 (GMT)
Notification to authors : June 13, 2006 (GMT)
Camera-ready due : July 3, 2006 (GMT)

General co-Chairs

Yuko Murayama, Iwate Prefectural University, Japan
Shinichi Kawamura, Toshiba Corporation, Japan

Program Committee co-Chairs

Hiroshi Yoshiura, University of Electro-Communications, Japan
Kouichi Sakurai, Kyushu University, Japan
Kai Rannenberg, Goethe University Frankfurt, Germany
