

# 4th International Workshop on Security

**IWSEC2009**  
*in Toyama*

October 28-30, 2009

TOYAMA International Conference Center  
Toyama, JAPAN

Jointly organized by ISEC and CSEC

<http://www.iwsec.org/2009/>

ISEC is a technical group on Information SECURITY, in ESS, Engineering Sciences Society, of IEICE, the Institute of Electronics, Information and Communication Engineers, Japan.

CSEC is a special interest group on Computer SECURITY, of IPSJ, Information Processing Society of Japan.

## CALL FOR PARTICIPATION

### Welcome to IWSEC2009

Following the success of past workshops in this series, ISEC and CSEC are delighted to host the **Fourth International Workshop on Security, IWSEC2009, on October 28-30, 2009, in Toyama, Japan.**

The complex structure of networks, middleware, agents, P2P applications and ubiquitous computing for commercial, personal, communal and public use, brought forth the advent of information society in the cyberspace. However the system poses new and diverse threats to the world. It is imperative for the security researchers to look into the issues from an interdisciplinary perspective.

The aim of **IWSEC2009** is to contribute to security research and development addressing the topics from traditional theory and tools on security to up-to-date issues.

- Network and Distributed Systems Security
- Security Issues in Ubiquitous/Pervasive Computing
- Authorization and Access Control
- Software and System Security
- Usable Security
- Privacy Enhancing Technology
- Digital Identity Management
- Digital Forensics
- Biometrics
- Cryptography
- Information Hiding
- Quantum Security
- Secure and Efficient Implementation
- Other Scientific Approaches for Security

We have 46 paper submissions. Among them 13 regular papers and 6 short papers were accepted through a rigorous review process. **We now invite you to attend IWSEC2009. Join the fruitful discussions in Toyama!**

**Program :** <http://www.iwsec.org/2009/program.html>

**Invited Talks:** "The Psychology of Security," by Bruce Schneier  
"The Future of Cryptographic Algorithms" by Bart Preneel

**Panel Discussion:** "Cryptographic hash functions: SHA-3 and beyond"  
William Burr, Bart Preneel, Christian Rechberger, Bruce Schneier, Dai Watanabe

### Registration

On-line registration is available through the main website of the workshop, or go directly to the following URL. Early-bird registration is offered. Please visit the website to find the detailed information and register.

**On-line registration :** <http://www.iwsec.org/2009/registration.html>

**Early-bird registration deadline :** September 30, 2009

### Acknowledgement

IWSEC2009 is financially supported by the international exchange program of National Institute of Information and Communications Technology.
