

PWS CUP

Registration

Note: The PWSCUP competition will be held in conjunction with the IPSJ Computer Security Symposium (CSS 2017). All participants are required to sign-up the PWSCUP registration form (free). Participants are allowed to join remotely, but we suggest that at least one per term should register the CSS (from CSS official page <https://v3.apollon.nta.co.jp/css2017-jr/>) so that we take a contact with participants when necessary. We encourage students to join the competition and ask your advisor as the contact person of the team.

TASKS

- (1) Data Anonymization
- (2) Re-identification

Teams are required to join both tasks. We have no restriction of the operating system and software for the competition.

Dataset

We plan to use Online Retail Data Set from UCI Machine Learning Repository.

Schedule

- | | |
|---------------------------|---|
| • PWS Cup Registration | July 24 th – August 21 th , 2017. |
| • Anonymization Phase | in August - September |
