CALL FOR PARTICIPATION

Welcome to IWSEC2006

Following the success of a series of Japanese domestic symposia in the field of computer security, ISEC and CSEC are delighted to host the **First International Workshop on Security**, **IWSEC2006, on October 23-24, 2006, in Kyoto, Japan**.

The complex structure of networks, middleware, agents, P2P applications and ubiquitous computing for commercial, personal, communal and public use, brought forth the advent of information society in the cyberspace. However the system poses new and diverse threats to the world. It is imperative for the security researchers to look into the issues from an interdisciplinary perspective.

The aim of **IWSEC2006** is to contribute to security research and development addressing the topics: from traditional theory and tools on security to up-to-date issues.

- *Fundamental Tools for Information Security*
- *Network and Distributed Systems Security*
- *Privacy Enhancing Technology*
- *Secure Living and Working Environments*
- *Security in Commerce and Government*
- *Security Management*
- *Software and System Security*
- *Protection of Critical Infrastructures*
- *Testing, Verification and Certification*
- *Law, Policy, Ethics and Related Technologies*

We have about 150 paper submissions. Among them 30 papers were accepted and 28 short papers were selected through a rigorous review process. Their oral presentations are scheduled in the regular paper sessions and the short paper sessions.

We now invite you to attend IWSEC2006. Join the fruitful discussions in Kyoto!!

Registration

On-line registration is available through the main website of the workshop, or go directly to the following URL. Early-bird registration is offered. Please visit the website to find the detailed information and register.

> ***On-line registration : http://www.iwsec.org/registration.html***
>
> ***Early-bird registration deadline : September 30, 2006 (GMT)***

Kyoto

Late October is one of the best seasons to visit Japan, and the organizers are most pleased to host the conference in the city of Kyoto, where the tradition and modernity exist in harmony. While modern buildings line the main streets, the city maintains the serenity of an ancient capitol. Recognized by UNESCO as the World Cultural Heritage, the city is filled with ancient temples and beautiful gardens. For the visitors from outside Japan, Kyoto is easily accessible from Kansai Airport.
